

**merovingian mortuary archaeology and pdf**

This is a list of archaeologists – people who study or practise archaeology, the study of the human past through material remains.

**List of archaeologists - Wikipedia**

A tumulus (plural tumuli) is a mound of earth and stones raised over a grave or graves. Tumuli are also known as barrows, burial mounds or kurgans, and may be found throughout much of the world. A cairn, which is a mound of stones built for various purposes, may also originally have been a tumulus.. Tumuli are often categorised according to their external apparent shape.
