Horses of a Different Color 01/09/2019. It's always satisfying to see a restored piece come out of the Painting Lab, but this work we did for the Frontier Army Museum really brought this painting back to life.

Welcome | History Nebraska

A steel building is a metal structure fabricated with steel for the internal support and for exterior cladding, as opposed to steel framed buildings which generally use other materials for floors, walls, and external envelope. Steel buildings are used for a variety of purposes including storage, work spaces and living accommodation. They are classified into specific types depending on how they ...

Connecticut Building Standard Guidelines Compliance Manual

The foundation of any construction project is rooted in the concept and design stages. The concept stage, in fact, is one of the major steps in a project life cycle, as it has the largest impact on cost and performance. In designing environmentally optimal buildings, the objective is to minimize the total environmental impact associated with all life-cycle stages of the building project.
